In September of 1979, journalist Michael Evans sat in Tel Aviv Israel with Isser Harel, then chief of Mossad, enjoying tea and cookies while having a conversation about Arab terrorism.

**Isser Harel** ([Hebrew](#): איסר הרצל, 1912 – 18 February 2003) was [spymaster](#) of the [intelligence](#) and the [security](#) services of [Israel](#) and the Director of the [Mossad](#) (1952–1963). In his capacity as Mossad director he oversaw the capture and covert transportation to Israel of [Holocaust](#) organizer [Adolf Eichmann](#).<sup>[2]</sup>

After the creation of [Israel](#) in 1948, Harel founded and became the first director of Israel's internal security agency, [Shin Bet](#). Later, he took over the Mossad a year after it was created in 1951. As chief of two of the nation's three intelligence agencies, Harel wielded considerable power in Israel's first 15 years.

Michael Evans, (((journalist)))

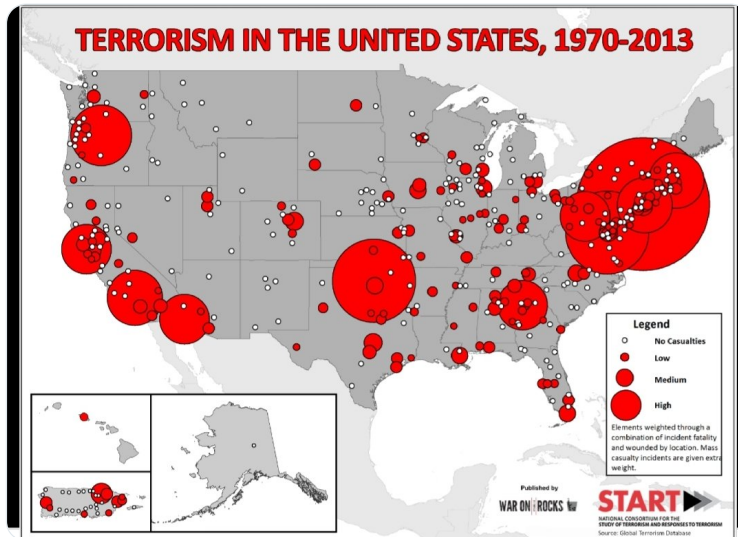

*This interview was first featured in August 2004*

Michael D. Evans is an evangelist, writer, and founder of the [Jerusalem Prayer Team](#), whose mission is "to guard, defend and protect the Jewish people...until the redeemer comes to Zion." Among its supporters are televangelist Pat Robertson, and Tim LaHaye, author of the best-selling "Left Behind" novels.

Evans asked Harel if he thought terrorism would come to America- and if so, where,

when, and why?

Harel replied:

“I fear it will come to you in America. America has the power, but not the will, to fight terrorism. The terrorists have the will, but not the power, to fight America. But all that could change with time. Arab oil money buys more than tents.”

Harel continued:

“New York City is the symbol of freedom and capitalism. It’s likely they will strike the Empire State Building, your tallest building (at that time) and a symbol of your fertility”.

>tallest building AT THAT TIME

Cap view from 71st floor, WTC

*THE EMPIRE STATE BUILDING is seen from the  
71st floor of One World Trade Center in New York  
(photo credit: ANDREW BURTON/REUTERS)*

Digging deeper, September 23, 1979

Harel tells Evans America had developed an alliance between two countries, Israel and Saudi Arabia, and that the alliance with Saudi Arabia was dangerous and would develop a tolerance for terror among Americans.

*On Sept. 23, 1979, the founder of Israeli intelligence over dinner told me that America was developing a tolerance for terror. The gentleman's name was Isser Harel, the founder of Mossad Israeli intelligence-he ran it from 1947 to 1963. He told me that America had developed an alliance between two countries, Israel and Saudi Arabia, and that the alliance with Saudi Arabia was dangerous and would develop a tolerance for terror among Americans. He said if the tolerance continued that Islamic fundamentalists would ultimately strike America. I said "Where?" He said, "In Islamic theology, the phallic symbol is very important. Your biggest phallic symbol is New York City and your tallest building will be the phallic symbol they will hit." Isser Harel prophesied that the tallest building in New York would be the first building hit by Islamic fundamentalists 21 years ago.*

Harel also said if the tolerance continued that Islamic fundamentalists would ultimately strike America.

All of this was said in 1979.

Talpiot and Unit 8200: the Global Cyber Agenda for Kill Switch Domination.  
This paper suggested some very interesting connections- I was actually running research on Unit 8200 when I stumbled on to Isser Harel.

## Talpiot and Unit 8200: The Global Cyber Agenda for Kill-Switch Domination

Jeremy Rothe-Kushel

---

### Talpiot, Unit 8200 and the Ascent of Cyber

**Talpiot** = Special Forces Engineer Training for Management of Strategic Tech Domination  
3 years in Physics, Math or CompSci while field training across all IDF branches, then 6 years service in IDF

**Unit 8200** = Israeli NSA and engineering force/source for Israeli cyber power worldwide  
Dagan's Mossad (HUMINT) + Zeevi-Farkash's AMAN/8200 (SIGINT) = HUGINT (Cohen)  
*'Rise and Kill First: The Secret History of Israel's Targeted Assassinations'* by Ronen Bergman (pg. 597)

Talpiot/Unit 8200 power as result of long-term Israeli Technical Intelligence (LAKAM)  
In an age of the ascent of CyberWarfare, should we talk about TECHINT or CYBINT?

### 1979: Harbingers of 9/11 & GWOT, Agents & Talpiot

- Jerusalem Conference on International Terrorism - organized by Netanyahu
- Father of Israeli Intelligence Isser Harrel foretells to journalist Michael Evans:  
*My last question was would terrorism ever come to America. "You have the power to fight it," he said, "but not the will. They have the will, but not the power. All of that will change in time. Yes, I fear it will come to New York and your tallest building, which is a symbol of your fertility."*
- Shaul Eisenberg (Mossad/Belt Asia/Israel Corp) files Israeli military covertly to China
- Yossef Bodansky (LAKAM) arrived in USA (helps create Technology Transfer Center)
- The Talpiot Program begins

We learn that 1979 was also the same year the Israeli Talpiot Program was rolled out- AND the same year the "War on Terror" had its public debut at the 1979 Jerusalem Conference on International Terrorism.

The Talpiot Program, a long-term Israeli Military Intelligence strategic initiative to give the Israeli War State a permanent technological edge, was rolled out in 1979.

Coincidentally, this was the same year the modern "War on Terror" had its public-policy birth at the infamous 1979 Jerusalem Conference on International Terrorism.

While the SECURITY and INTELLIGENCE results of Talpiot heightened the effectiveness of Unit 8200 (Israel's NSA, co-producers with CIA of the Stuxnet industrial virus), the deep corporatist ECONOMIC impact only got super-charged in the wake of the 9/11 false-flag.

Coincidentally, this was the same year the modern "War on Terror" had its public-policy birth at the infamous 1979 Jerusalem Conference on International Terrorism.

To recap, 1979 saw the unveiling of the War on Terror, the activation of the Israeli Talpiot Program to give Israel a "permanent technological edge", and a deadass perfect prediction of 9/11 20 years early by Isser Harel, the chief of Mossad.

After several twists and turns, I reapproached Unit 8200 through new angles delineated in the "Kill Switch" paper.

Talpiot's origin is found in Congressional bill S.2497. By law, US gives its tech to Israel to "bolster security", which Israel then gives to Russia and China.

#### Exposing Israel's Global Supremacy

### Talpiot, founded 1979

Talpiot & the Multipolar World Order | Through Israel's [Talpiot](#) and [espionage operations](#), Israel is able to [dominate the high tech sector globally](#). "Talpiot was intended to give Israel a homegrown military edge, but it is also a contributing factor to its edge in biotech, high-tech and academia [[ISRAEL21c](#), 2012]. "The unit also has to help Israel stay ahead of the United States and other large countries with strong militaries [[Times of Israel](#), 2016]."

Talpiot allows Israel to take US technology and hand it to [Russia](#), [China](#), and beyond, with zero repercussions. Its foundation can literally be found in a recent Congressional bill, '[S.2497 – United States-Israel Security Assistance Authorization Act of 2018](#)'. By law, the US "shares" technology with Israel all under the guise of ensuring Israel's national security. <https://talpiottalk.com/2018/04/09/talpiot-the-multipolar-world-order/>

Inaugurated in 1979, Talpiot has spawned such leading lights as Check Point Software Technologies co-founder Marius Nacht, [EarlySense](#) founders Avner Halperin and Guy Shinar, Samsung R&D Labs director Tsvi Lev, [Navotek Medical](#) CEO Giora Kornblau, [Itamar Medical](#) R&D VP Efrat Litman, iOnRoad CEO Alon Atsmon, [TaKaDu](#) CEO Amir Peleg, Trusteer CTO Amit Klein, Kaizen Financial Engineering co-founder Dvir Greenberg, Odysii CTO Tal Reichert ... well, you get the picture.

So, reading between the lines, the Tapiot Program was initiated in order to give Israel permanent dominance in tech- which allowed the Israeli Military and Unit 8200 all the leverage to become the pervasive cyber juggernaut it has become.

Very recently, [@thaaak](#) shared this nugget, asserting the founding of Unit 8200 in 1952 with help from the CIA.

**Harry the Greek**

💬 17 people are talking about this >

This seems to loosely check out, as I was able to confirm that in the early 1950s, Unit 8200 was allotted a 15k budget and an additional 110k for purchases (about 1.25 million dollars today).

Who gave the money was never stated, but Philco is mentioned.

In 1950, Unit 8200 was given a \$15,000 budget and an additional \$110,000 for electronic purchases abroad (Perman, 2004). This amount in 2016 USD amounts to around \$1.25 million, which is a miniscule amount when trying to purchase the most advanced

17

computer systems in the 1950's. Partially due to the low budget and partially to maintain secrecy of its intelligence capabilities, the Unit developed most of its technology in-house (Perman, 2004).

Unit 8200 was established in 1952 using primitive surplus American military equipment. Originally, it was called the 2nd Intelligence Service Unit and then the 515th Intelligence Service Unit. In 1954, the unit moved from Jaffa to its current base at the Gilot junction.<sup>[7]</sup>

Figure 4: Unit 8200 History 1948-1973

Philco was a pioneer of transistorized computers, formerly Helios Electric Company, founded 1892.

**PHILCO**

PHILCO Memorabilia

PHILCO-Ford

**Company:** PHILCO (Philadelphia Storage Battery Company)

**Based:** Philadelphia, PA. USA

**Founded:** 1892 as Helios Electric Company, acquired by Ford Motor Company in 1961 (PHILCO-Ford), sold to GTE-Sylvania in 1974.

**Founder:** Thomas Spencer

**Specialty:** Early transistor pioneer, produced first commercially available germanium transistors, development of the surface barrier transistor, produced the first commercially available transistorized computer - the Transac S-2000. Leader in early commercial Transistorized radios and TVs. The Philco 210, 211, 212 Computers.

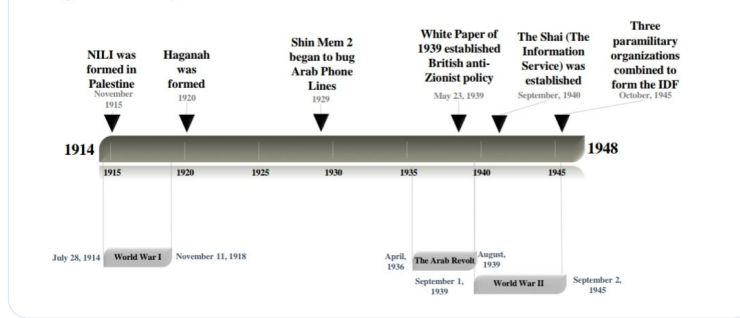

1953-1965

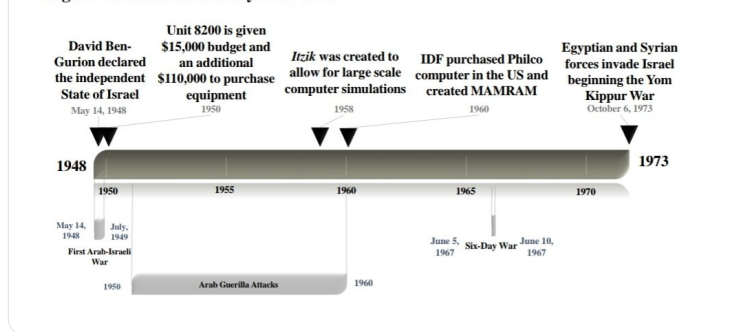

The next two frames are incredible. The origins and genesis of Unit 8200 begin back in 1914, well before World War II or the creation of Israel. This timeline shows the progress through the years 1914-1948.

Figure 3: History of Unit 8200 Precursors 1914-1948

And here, continuing on post 1948 up until 1973- just a short six year gap between 1973 and 1979, when Issel Harel made his astonishing predictions, the War on Terror is unveiled, and the Talpiot Program is activated.

Figure 4: Unit 8200 History 1948-1973

And now, just look how far we've come.

This write up states that Boston alone is home to roughly 250 tech firms all connected to Talpiot and Unit 8200. In 2015, they accounted for 9 billion dollars in revenue and secured another 1.2 billion in venture capital.

ISRAEL21c

## 12 Israelis making a mark on Boston's tech scene

About 250 Israeli-founded companies in the greater Boston area contribute significantly to the Massachusetts economy and innovation ecosystem.

By [Abigail Klein Leichman](#) | OCTOBER 15, 2017, 8:00 AM

"The Boston Israeli community is very talented and accomplished," says Dan Trajman, president and CEO of the [New England Israel Business Council](#). He estimates that roughly 25,000 Israelis live in the Boston area.

"Most Israelis who come to Boston are coming to study at the top universities in the area, to do research, to start a company or because they are being relocated by their company. It started in the 1960s and grew since then. There are several generations of successful Israelis, some already retired and some in their prime right now," Trajman tells ISRAEL21c.

An independent [study](#) commissioned by the NEIBC last year revealed that Israeli-founded businesses contribute more than \$9 billion of revenue to the

more than \$2 billion of revenue to the Massachusetts economy and secured more than \$1.2 billion in venture capital from 2013-2015.

Assaf Rappaport, CEO of Microsoft and graduate of both the Talpiot Program and Unit 8200 is most likely to be in control of the recently acquired 10 billion dollar Pentagon Cloud JEDI program.

## 8. KILL SWITCH UNIT

### 8200 PARTIES IN NEW YORK PWD

### Adallom - Wikipedia

W <https://en.m.wikipedia.org/wiki/Adallom>

Adallom was founded in 2012 by Assaf Rappaport, Ami Luttwak and Roy Reznik, who are former members of the Israeli Intelligence Corps' Unit 8200 and alumni of the Talpiot program. Adallom's namesake originates from Ad Halom, otherwise known as the "last line of defense."

Ex NSA Director and Navy Admiral Michael Rogers sits on the senior advisory board of Team8, an Israeli cyber security think tank founded by former Unit 8200 chief Nadav Zafir, and fellow veterans Israel Grimberg and Liran Grinberg.

The Talpiot Program and Unit 8200 has fostered an environment where the veterans found startups that get sold to and absorbed by huge players like you see here. Their influence, one way or the other, is everywhere.

Here are some numbers-

350 israeli controlled hi tech companies in New York.

700 former members in NYC, Silicon Valley, and Boston alone, per Haaretz.

## THE OCCUPATION OF THE CYBER FRONTIER BY ISRAEL'S UNIT 8200

*"In intelligence, you can't work only by rules."*

– Rami Efrati, Israeli businessman and former member of Unit 8200.

When these people move to private business, they have contact networks of their fellow unit members to mine and prestige in the eyes of Israeli and 'Western' companies and investors as a result of their connection to Unit 8200. '350 Israeli-controlled high-tech firms' operate in New York City alone, employing hundreds of former Unit 8200 members.

When the former Unit 8200 go found 'start-up' tech companies, these companies ethos is that which they learned in serving the occupation: Everything is permissible and how their services are used by their customers is solely an issue for those customers. In 2016 there were 27 Israeli surveillance companies, highest per capita in the world. As comparison, United States had 122

According to Haaretz, 700 former members of Unit 8200 are working in

surveillance companies and the world overall had 528.
